PLANT 2 Standard Operating Procedure	Product Changeover and Line Clearance, Lines 1 and 3		
	Document No.: **SOP-105**	Revision: **B**	Effective: **2021-02-08**
Department: Production	Prepared by: R. Okafor	Approved by: J. Brandt	

1.0 PURPOSE

Change between products of the same bottle size without mixing product, labels or caps.

2.0 SCOPE

Line 1 (AC-1000, AC-1000-LEM) and Line 3 (DS-0750, DS-0750-ECO). The clearance steps also apply to Line 2 size changeovers.

3.0 RESPONSIBILITIES

Role	Responsibility
Shift Lead	Verifies the line clearance.
Operator	Clears the line and loads the new materials.
QA Technician	Gives first-off approval.
Batching Operator	Flushes the supply line from the mixing tank.

4.0 SAFETY AND MATERIALS

Personal protective equipment: Safety glasses; Safety shoes; Chemical-resistant gloves

Materials: Labels; Caps (28 mm); Flush water

Tools: Lint-free wipes

5.0 RELATED DOCUMENTS AND RECORDS

Documents: QP-306 First-Off Approval; WI-210 Filler Setup and Nozzle Check; WI-212 Labeler Setup and Label Roll Change

Records: FRM-PR-05 Line Clearance Checklist

6.0 CLEAR THE LINE

1. *Operator:* Run out the old product until the filler bowl is empty. Stop the line.
2. *Operator:* Remove every bottle, cap and label of the old product from the line, the floor and the reject bins.
3. *Operator:* Remove the label roll from the labeler and return part rolls to the label cage with the roll tag attached.

4. *Batching Operator:* Flush the supply line from MIX-1 or MIX-2 to the filler with water for 10 minutes. Drain.
5. *Shift Lead:* Walk the line with FRM-PR-05 Line Clearance Checklist. Sign only when nothing from the old product remains.

7.0 LOAD THE NEW PRODUCT

1. *Operator:* Load the new labels and set up the labeler as described in WI-212.
2. *Operator:* Prime the filler and set up as described in WI-210.
3. *QA Technician:* First-off approval as described in QP-306, including a label and lot code check.

Note: Target changeover time: 30 minutes.

8.0 REVISION HISTORY

Rev	Date	Change
B	2021-02-08	Flush time changed from 5 to 10 minutes.
A	2019-05-20	First issue.
